

5th November 2019

To: Parents of pupils in Year 8

Dear Parents

Year 8 mathematics

I am writing to inform you of a change to the delivery of Year 8 mathematics.

We will now teach pupils in their normal teaching groups (A or B). Both teachers will teach each group on a half-termly rotation. This will begin with immediate effect.

Please note that at KS3 we do not set or stream pupils according to ability. Both classes cover the same content, the delivery of which is tailored to each individual pupil. Two classes of a similar size will help us to ensure a productive learning environment for all.

If you have any queries please do not hesitate to contact me on davidthompson@hollygirt.notts.sch.uk.

Yours sincerely

Mr D Thompson
Senior Teacher (Curriculum)
