

Summer Works 2023

Prep and Senior staff rooms will be renovated.

Villa Rd will become a Sixth form block. The upstairs will house a whole school library – we intend for this to be a large library with numerous desks for study. There will also be a Careers Library for Sixth form over there. Downstairs will be an IT suite /common room and cafeteria for Y12/13. We will look to facilitate an office space for Ali Brown (HOSF) and a sensory area too.

The upstairs of Stafford house is being renovated - this will provide a new classroom space for Y5 /6 – space for peri music lessons /LAMDA – all to be finalised but quite a big space up there.

In addition, the kitchens are moving over to the senior school. This will create Y5/6 classroom /music room space for the Prep.

The majority of the school eats in seniors, but food is cooked in juniors and the caretakers spend hours carrying this over – this will put our kitchens where the food is eaten... it makes sense.

I want to thank all the staff involved in change for their flexibility as these steps are so important for the school.
